	Busine	ss Fundamentals	S ENTU4UUBRU		
Credit value		3	Duration (hours)	45	
Aim	This module will introduce learners to the fundamentals of business. They will begin by exploring the definition of a business, the three main business sectors and what license types are possible for businesses in the UAE. Learners will then study the various forms of business ownership and evaluate the pros and cons of each. They will begin to understand how a business can be structured, what business goals and objectives are and how the various functions of an organisation work together to achieve these. Learners will analyse the business life-cycle, review external business environments and investigate how they impact the success and strategic aims of a business. This module will provide learners with the opportunity to relate these key topics to the real world by researching and working on case studies based on existing local and global companies.				
Module Learr  At the end of t		es learners will be able to:			
Describe what businesses do and how their core departments function					
1. Des					
	lluate busine	ss ownership and orgar	isational structures

<b>Module Learn</b>	ing Outcom	es					

At the end of this module, learners will be able to:

1. Describe forms of communication such as verbal and non-verbal

2. Apply considerations of culture and diversity while communicating with people from multicultural backgrounds

3. Demonstrate effective methods of researching, reading and referencing information

4. Use types of professional communication

Module Title	Event Ca	apstone ENT04002	RU				
Credit value		4 Duration (hours) 60					
Aim	This module aims to consolidate and integrate the knowledge, skills and attitudes acquired throughout the Level 4 Events Certificate Programme. Learners are required to apply all of the skills necessary to successfully initiate, plan, execute, control and close an event. Working as a part of the event planning group, leaners will work on various phases of the event including event proposal, event planning documents, budgets, risk register, run sheets, etc. Learners will also need to do post event evaluation on the success of the event, reflecting on their performance and individual contribution. The module will allow the learners to experience a real-life event with all of its challenges, helping them to be prepared for a job in the industry.						
Module Lear	ning Outcom	es					
At the end of this module, learners will be able to:							
1. Develop an event proposal in response to a client brief							
2. Plai	2. Plan a live event as part of a team						
3. Exe	3. Execute a live event as part of a team						
4. Reflect on the success of a live event							

Module Title	Event P	lanning	ENTO40	D3RU			
Credit value		4 Duration (hours) 60					
Aim	This module aims to provide learners with the knowledge and skills required to plan an event from conception through to execution. The module will enable learners to understand how to create and use key event planning documents, and will also familiarise learners with major event activities that need to be considered during the event planning phase.						
	Module Learning Outcomes  At the end of this module, learners will be able to:						
Develop an event concept from provided parameters							
2. Apply tools for testing and modifying an event concept							
3. Plan an event using recognised industry tools							
4. Describe post-event activities that occur in the events industry							

Module Title	Event S	Site Selection EN	T04004RU				
Credit value		3 Duration (hours) 45					
Aim	This module aims to provide learners with the knowledge and skills required to source and select sites and venues for events. This includes the ability to analyse event briefs in order to determine venue or site requirements, to develop selection specifications and contract site use (including a consideration of legal requirements and risk management). This module is relevant to a broad range of events that are diverse in nature, and are coordinated in many industry contexts, including the tourism, hospitality, sports, cultural and community sectors.						
Module Learn	odule Learning Outcomes						
At the end of this module, learners will be able to:							
1. Source venues for events considering event details and site requirements							
2. Describe the potential risks and regulations associated with event sites and venues							
3. Expl	lain the tools	and criteria used to ins	pect and evaluate shortlisted ev	ent sites and venues			

4. Describe the steps and documentation involved in confirming a venue for an event

Module Title	Financial	Accounting and Co	ontrol ENT04008RU				
Credit value		4 Duration (hours) 60					
Aim	This module will introduce and develop basic analytical skills that employees and managers require in terms of facilitating effective financial planning, control and decision making in a service industry context. Learners will acquire the skills and knowledge required to interpret financial information used by organisations to monitor business performance and provide information on operational and departmental financial activities. On successful completion of this module, students will be able to interpret financial statements, perform breakeven analysis and calculations, create and interpret budgeting and forecasting data as well as calculate and explain key performance indicators such as financial ratios.						
Module Learn	ing Outcome	es					
At the end of t	At the end of this module, learners will be able to:						
1. Exa	1. Examine financial accounting systems in current use						
2. Apply financial accounting techniques effectively							
3. App	3. Apply tools for effective financial planning and control						
4. Calculate financial ratios accurately
